

PROFISIL® FLUORIDE VARNISH

A new dimension of Varnish Gel

Profisil® Fluoride Varnish contains 5% sodium fluoride in a mucosa-friendly, pleasantly flavored dimethicone gel. This formula is not made with ethyl alcohol* or colophony (rosin), thus reducing the potential of soft tissue irritation or rosin-based allergies.

- This formula is designed to securely adhere to the tooth surface for several hours while releasing fluoride ions up to 24 hours.
- Transparent and colorless after applying for optimal aesthetics
- Constant viscosity and easy to spread
- Available as single dose unit incl. a brush
