

DAL ORTHODONTIC/ORTHOPEDIC APPLIANCES

DAL Orthodontic Laboratory, the orthodontic division of Dental Arts Laboratories, provides a full range of orthodontic/orthopedic appliances from the simplest of space maintainers to the most complex orthopedic appliances and neuromuscular orthotics. Our team has over 25 years of experience in case design and fabrication of orthodontic/orthopedic appliances and TMJ splints/orthotics.

Our staff has been trained in the disciplines taught by leading clinicians such as Drs. Truitt, Witzig, Stack, Gerety, Garcia, George and Halstrom. In addition, our professionally trained technical staff fabricates appliances with the utmost care to meet both your specifications and your patients' requirements. All appliances are fabricated from the finest materials available and are unconditionally guaranteed for thirty days.
