

PayerSync™

Digital Insurance Reimbursements with EOPs

The fastest payments in healthcare.

PayerSync™ transforms how healthcare organizations receive insurance reimbursements. It automates the revenue cycle, from claim payment to posting.

Instant, integrated, and secure.

End-to-End Digitization

Automates both payer payments and Explanation of Payments (EOPs) into a single, one-click posting directly and securely to the Practice Management System and patient accounts.

Accelerated Reimbursements

Expedites payer payments without manual intervention to significantly improve practice efficiency and working capital.

Seamless Integration and Security

Integrates with existing systems, ensuring HIPAA-compliant data exchange and simple reconciliation.

Never key in payments.

Payments automatically process electronically
Funds are transferred to the provider's bank account without manual intervention.

Simplify reconciliation.

Explanation of Payments are standardized
EOPs are consolidated, consistent, and include remark codes.

Eliminate errors.

Payments post directly to patients' accounts
Insurance payments post accurately within the PMS with one, simple click.

PayerSync Benefits

Time Savings

Automation eliminates the need to key in data and manually post payments.

Increased Efficiency

One-click payment posting simplifies data entry and enhances productivity.

Improved Accuracy

Standardized EOPs and reduced manual effort ensures data integrity.

Revenue Growth

Faster reimbursements and shorter payments cycles boost cash flow.

50%

50% faster payer payments

12↓

12 day reduction in processing cycles

20+

20+ staff hours saved per month

Average outcomes reported by customers.

No more stacks of paper. I just log into PayerSync, and it's all there. All my payments from all my payers are there. All the data that I was looking for is there.
