

All-In-One Dental VOIP Phone System

When was the last time you updated your phone system?

We realize that upgrading your phones to a new VoIP phone system can be a daunting experience. You may be asking yourself these questions: What kind of phones do I need? Is there a major difference between VoIP phones? Are there hidden fees? Do I pay per phone? Do I need a fast internet connection?

Zultys is your affordable and scalable Dental VoIP business phone system that fits your needs. We have done the research and we use the phone system too!

Zultys is a secure, reliable, and scalable enterprise-class communication solution, without the enterprise-class cost. Your system lives in the Cloud, so there is far less for you to manage and maintain, giving you built in ease of use and peace of mind. With the Zultys VoIP solution, your dental office can enjoy the benefits of VoIP, including:

Cost Savings

VoIP can significantly reduce the cost of traditional phone service.

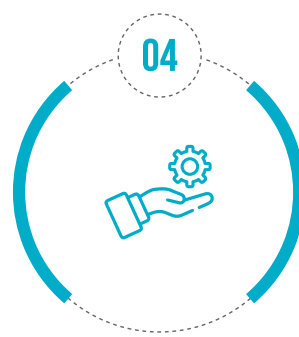

Flexibility

VoIP allows businesses to be more flexible in their communications, as they can use any device with an internet connection to make and receive calls. Staff can work on a variety of devices including desk phones, desktop computers, laptops, and mobile devices.

Enhanced Features

VoIP offers a variety of enhanced features, such as call forwarding, private number, voicemail, and video conferencing.

Scalability

The Zultys VoIP solution is scalable, so practices can easily add or remove users as needed.

Security

Zultys is fully HIPAA compliant, giving your dental practice peace of mind knowing that private and sensitive patient information is protected.

Best of all, when you choose a your VoIP solution from HTI, you streamline support requests. Rather than adding another vendor to your mix, you can contact your HTI Help Desk to help you resolve any issues you experience with your phone system.

As a Synergy Member with Procure, you will have access to HTI's deeper discounted rates off your VOIP phone system. Plus, we will guide you in choosing the correct plan that ensures your practice never misses a call.
