Case Study

New Patient Finder: Advanced Search Engine Optimization

For this case study, we'll examine a practice that ranked well for only a few keywords but was struggling to breakthrough on a number of high value keywords. Wanting to rank well for common searches like "dentist" and "family dentist", they asked up for help.

After switching to a VivioSites' website and utilizing our SEO services, we were able to boost them to the top 3 positions for all of their keywords. Once achieved, we were also able to maintain these rankings in a competitive market.

Keyword Rankings Before and After Working with VivioSites

Keywords	Rankings Before VivioSites	April 2018	May 2018	June 2018	March 2019	July 2020	June 2021	July 2022	October 2022
