

Shaping dental progress together

Advancements in dentistry and dental technology benefit us all. And, for decades, in close cooperation with our customers, DMG has been actively involved in shaping this process. We strive to provide optimized solutions and validated workflows that make daily life easier and more efficient for dental practices and laboratories.

Investing in the future of dentistry

We're passionate about research and development and are dedicated to developing the exciting areas of digitization, modern restorative treatments, prevention, and early intervention.

Proven and trusted quality

All our products have been produced, rigorously controlled, and certified with care, resulting in premium products you can rely on.

The Ecosite Family

The right composite for every situation

The Ecosite family of restorative composites is a simple and reliable way of handling any case. Whatever the indication and technique, it has everything you need, with the convenience of mixing and matching!

Ecosite Elements: Innovative, compact composite system with excellent esthetics

Ecosite One: True one-shade composite for posterior fillings

- **Ecosite Bulk Fill:** Bulk filling material for one-step posterior fillings
- **Ecosite Bond:** Light-curing universal adhesive

Ecosite Elements

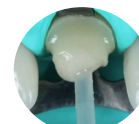

LuxaCore® Z Dual

Cuts and bends just like dentin

LuxaCore Z Dual is the 13x Dental Advisor award-winning composite core material with added Zirconium filler, nanotechnology, and its superior physical properties.

- Cuts remarkably like dentin
- High compressive and flexural strength
- Patented nanotechnology prevents particle agglomeration
- Smooth, flowable, ideal handling

Luxatemp® Ultra

Rated #1 in flexural strength

Luxatemp Ultra is the ultimate crown and bridge provisional material rated #1 in flexural strength with unmatched esthetics that sets the bar for provisional materials.

- The industry leader in flexural strength
- Unsurpassed break resistance
- Fast curing, easy cutting and handling
- Outstanding, lifelike esthetics
- Superior stability and durability

LuxaCrown®

Maximum strength, durable provisionals

LuxaCrown is a unique, high-quality, long-term provisional crown and bridge material solution that's ideal for patient emergencies and everyday clinical treatments.

- Long-term with excellent results
- Excellent fracture toughness
- High polishability; excellent durability
- Time and cost savings
- Wide range of applications

Icon® Caries Infiltrant

Change the way you treat early caries

Icon is the breakthrough caries infiltration system proven to effectively treat interproximal and smooth surface lesions. Offer patients a less-invasive solution with no drilling or anesthesia, in one visit!

- Esthetic results on smooth surfaces
- Arrests caries at an early stage
- Preserves healthy tooth structure
- No anesthesia or drilling, in one visit

Kolorz® ClearShield™

Clear, best-tasting fluoride varnish

Kolorz ClearShield 5% Sodium Fluoride Varnish is the allergy-friendly preventive choice with Xylitol. It goes on clear and tastes great!

- Contains Xylitol and fluoride (22,600 ppm)
- Clump-free consistency
- Gluten, aspartame and saccharin free
- Dries clear
- Five best-tasting flavors
