### Honigum Pro is your complete impression material system.

Honigum Pro is the only VPS that goes where you want it, stays where you place it and has the unique ability to thin under load. It makes its way into tiny crevices and hard-to-reach areas that other impression materials can miss.

Its true thixotropic formula doesn't slump or run but remains stable where you place it, with the remarkable strength to resist tearing upon removal, preventing the need for retakes.

Because, the better the impression, the better the restoration.

#### Honigum Pro Heavy

- › Heavy consistency material
- › Extreme accuracy, stability, easy removal and rigidity
- › Available in regular or fast set

#### Honigum Pro-Putty

- › Premium VPS impression material with a putty consistency
- › Outstanding recovery after deformation, excellent dimensional stability and tear strength

#### Honigum Pro Light

- › Light consistency wash material
- › Extraordinary stability, improved flowability, high toughness
- › Precise detail
- › Available in regular or fast set

Honigum Light & Light QuadFast available in convenient 25 ml cartridges

#### StatusBlue

- › Firm consistency for easy tray dispensing and better patient acceptance
- › Extremely flowable under pressure, capturing excellent detail
