

The best kept secret in dental is no longer a secret.

the traverse chair

by engle

Engle is the only company that makes the fully programmable, 10.25" forward/backward hydraulic Traverse Chair™

Did You Know?

Traverse™ employs **advanced hydraulic controls**, providing smooth motion while optimizing patient comfort.

Engineered to fit in the smallest spaces, Traverse™ has a footprint **10.25" smaller** than a standard dental chair.

The traverse feature allows dentists to position themselves behind the patient comfortably **without sacrificing space.**

Made in America, Sourced in the USA.
