

# THE IDEAL CONVERGENCE OF ADAPTATION, STRENGTH & ESTHETICS

## G-aenial™ BULK Injectable

Injectable High-Strength Ultra-Fine Particle Composite

Highly shapeable and easy to place, yet stays where you put it!

- Easy one-step filling – up to 4mm depth of cure with no capping or veneering required
- Full coverage silane coating of ultra-fine particles facilitates excellent adaptation to the cavity preparation
- Provides extraordinary wear-resistance and gloss retention
- Low volumetric shrinkage and low shrinkage stress helps ensure optimal marginal integrity

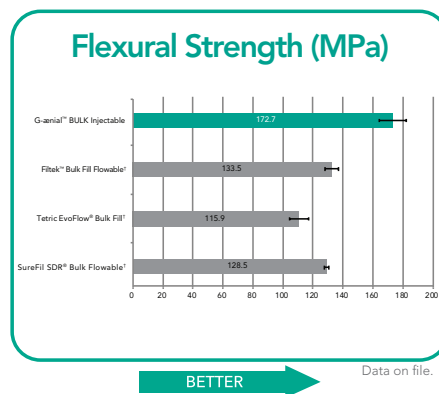

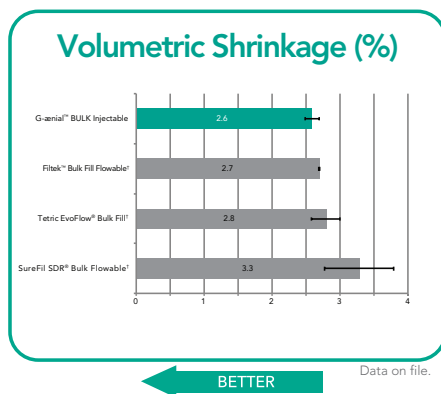

A restorative composite that is ideal for bulk filling to the occlusal surface of large cavities, by virtue of its injectable viscosity and excellent physical properties even superior to paste type composites\*.

- Injectable composite with excellent viscosity and thixotropy for ideal bulk filling
- Can achieve highly durable restoration via high wear resistance and flexural strength (unlike competitive composite)
- Excellent polishability and gloss retention with self-polishing ability
- Guaranteed depth of cure of 4mm which allows for bulk filling in one layer

| Cavity Depth  | Product Recommendation                                                       |
|---------------|------------------------------------------------------------------------------|
| Up to 2 mm    | <b>G-ænial™ Flo X</b> or                                                     |
|               | <b>G-ænial™ Universal Injectable</b>                                         |
| Up to 4-6+ mm | <b>G-ænial™ BULK Injectable with G-ænial Sculpt®</b> (veneer layer optional) |

G-ænial™ BULK Injectable provides the right combination of strength and esthetics to provide a durable restoration that looks great at every recall!

- High flexural strength to protect chipping or fracture
- Outstanding wear resistance to provide ultimate durability, with excellent color and gloss retention
- Low volumetric shrinkage and low shrinkage stress to preserve marginal integrity and protect against recurrent caries

#### G-ænial™ BULK Injectable Unitip Refills

Contains: 15 - 0.16mL unitips.  
013113 A1 013114 A2

#### G-ænial™ BULK Injectable Syringe Refills

Contains: One 3.4g (2.0mL) syringe, 20 Dispensing Tips III (plastic) and one light protective cap.  
012394 A1 012395 A2

#### G-ænial Sculpt® Syringe Refills

Contains: One 2.0mL Syringe.  
009152 A1 009153 A2 009154 A3 009155 A3.5 009156 A4 009168 AE 009161 AO1
