

THE ESSENTIAL SOLUTION FOR SENSITIVE TEETH

Toothpaste with the power of RECALDENT™

MI Paste® ONE is the newest member of the MI Paste® Family as a one step solution containing milk-derived RECALDENT™ (CPP-ACP) and fluoride, in a cool mint flavor. Brushing with MI Paste® ONE is a quick and easy change that could have significant benefits for your overall oral health and sensitivity management.

Use MI Paste® ONE for:

- Tooth sensitivity:
 - Due to general hypersensitivity
 - Due to tooth whitening
 - Before and after professional cleaning
- Remineralization
- Anticavity
- Dry mouth syndrome sufferers (as they are at a greater risk for caries)
- White spot lesions
- pH buffering to help neutralize pH levels in the mouth
- Preventive care

How to use MI Paste® ONE:

1

Brush teeth with MI Paste® ONE for 2 minutes.

2

Expectorate, but do not rinse

3

Refrain from eating for 30 minutes.
