

# INSURANCE VERIFICATIONS

*Save \$1 per verification  
through Synergy!*

## How it Works

### Profile

When we first start working with an office we build an office profile where we learn all of the information we need about the practice. From insurances accepted, to how you input information into your system we document it all.

### Access

Once we build the profile we gain access to your practice management software so we can gather patient information, and input the verified insurance back into your system the way you like.

### Verified

With our standardized form we make sure to collect all of the information you need. We make sure to input that into your system 48 hours in advance.

## You Receive A Dedicated Agent

Our insurance specialists are specifically trained to get you the information you need as quickly as possible. When an office signs up for our service they receive a dedicated agent who is available 5 days a week. Offices can contact their agents directly to make any updates or to get help with last minute verifications.
