

Amalgam Waste Recycling Solmetex — The Complete Solution

Market Leader

Clear by Design

ISO 11143 Certified

Easy Collection
Container Change-Out

Wet Waste

A certified installed NXT Hg5 amalgam separator will capture all the waste and solids sent through your dental water lines before it reaches your vacuum pump. This collection could potentially add 5 years* to the life of your vacuum.

**NXT Hg5

Bucket**

Affordable, One-Stop
Mail-Back Service

Ensures Compliance
with New EPA
Dental Amalgam Rule

No Contracts Required

Dry Waste

A Practice Waste Solutions amalgam bucket will store contact and non-contact amalgam, spent amalgam capsules, chair-side traps, central vacuum filters and extracted teeth containing amalgam. When full, simply print out a shipping label on Solmetex.com and mail it for proper recycling.

= Compliance

Certificates of Compliance available
online 24/7 at Solmetex.com
