

# Smarter Imaging Software for the Modern Practice

Break free from the constraints of legacy imaging software and switch to SOTA Cloud, dental imaging built for the modern practice.

## Compatibility

We play nicely with others. SOTA Cloud is compatible with virtually all sensors and integrates with all major practice management systems, so you aren't locked into specific vendors.

## Scalability

Whether you have 1 or 50 locations, SOTA Cloud makes adding offices easy. Quickly access patient records, analytics data, and more all in one place, anytime, anywhere.

## Easy Conversion

We make moving to SOTA Cloud seamless. Our team has a deep understanding of the conversion process, assuring your data is transitioned smoothly.
