MERCHANT FEE RATE CALCULATOR

Your All-in Rate is calculated by dividing
the total fees from your processor for the month
by your total credit card volume

Example

$$\begin{aligned} &\$800 \text{ in fees} / \$30,000 \text{ in sales} \\ &= 2.67\% \end{aligned}$$

IF YOUR ALL IN RATE IS OVER 2.20%,
PLEASE SEND US A RECENT
MERCHANT STATEMENT SO WE CAN
SEE HOW MUCH YOU WILL SAVE WITH
US.
