Opendental software

Synergy dental partners

Powerful.
Flexible.
Affordable.

Synergy Dental Partners Preferred Provider
Members receive 15% off expert support for the first 12 months
(12-month initial contract. See our Fees page for details.)

Our Features

eServices
Enhance your workflow and patient experience with built-in eServices, including automated texting, online form and scheduling, and more!

Highly Customizable
From preferences to permissions, Open Dental can be customized to fit practices of any size.

Robust Reporting
Easily analyze practice success using one of our 50+ built-in reports or find what you need in our library of over 1500 queries.

Regular Software Updates
Software updates are released regularly and often, so that you have access to the latest features.

Why Choose Us

- Our seasoned Conversions Team assists practices with a smooth transition from their current software.

- Resources include a complete user manual and a vast library of video tutorials. Affordable on-site or online training with an experienced live trainer are also available.

- Friendly, highly-trained technicians respond quickly to support needs.

- Third-party built-in and API integrations add even more features to an already extensive software.

Testimonials

★★★ See what others have to say about Open Dental Practice Management Software. ★★★

"It is my assertion that if every dentist downloaded the trial version (of Open Dental) and got a test data conversion (both FREE) and actually TRIED it, the other PMS companies would ALL go out of business. It is that good. It is that much of a BETTER VALUE. It blows the others away.

- Michael Barr DDS, dentaltown.com

The customer service is amazing both in results and calming frantic staff. The ability to customize to any practice environment has caused me to recommend this DPMS to all of my dental consultant clients.
- Lauren Bursell, Best Dental Help

Absolutely hands down the best dental software. I have used many others and truly can say it's my favorite.

- Suzanne, Facebook

Open Dental offers every feature you could want in a dental practice management software, at a fraction of the price compared to its competitors.
