

Payments

Collect more payments with less pain.

On average, practices collect an additional \$25,000 within three months of adopting Dental Intelligence Payments. Why? Because when payments are this easy, more patients pay on time and in full.

Simple process, simply done.

#1 Choose how you want to request payment.

Whether you're sending a single payment request or bulk payment request,* collecting payment on a physical terminal in the office, or using the virtual terminal over the phone, our Payments dashboard makes the process simple and intuitive for your team and your patients.

#2 Select your patient(s) and hit send.

Filter and select the patient(s) you're requesting payment from, review, and hit send – that's it! We'll take care of the rest.

#3 Patients receives message(s).

We'll send out a friendly, personalized text or email with a link for your patient to view and pay their balance. It's simple. They receive a text, click the link, and securely complete their dental payment.

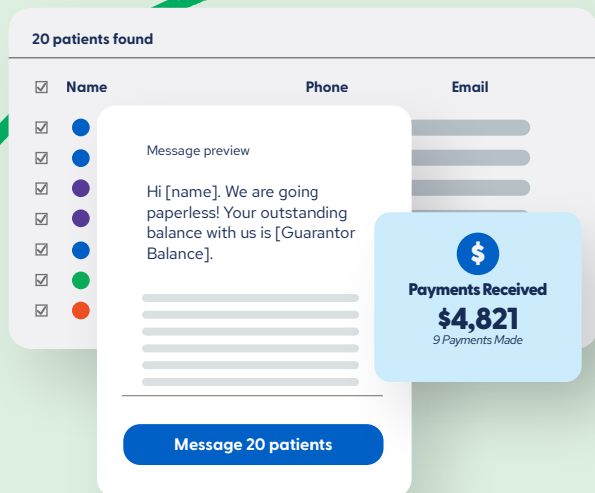

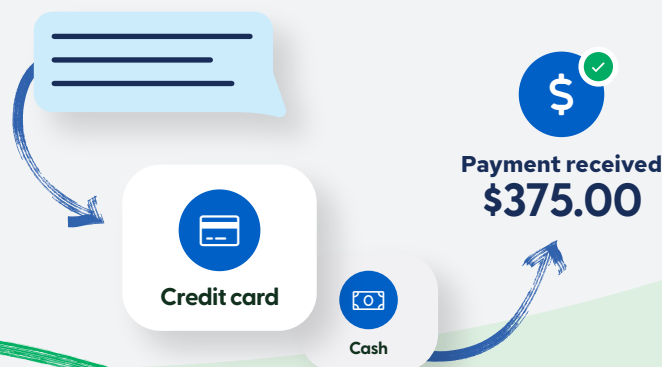

#4 You get paid.

We will automatically process and deposit the funds directly into your bank account, and you'll get an Inbox notification letting you know your patient completed the request. No need for a third-party processor.

#5 The ledger in your PMS gets updated automatically.

The best part? We write back every payment into your practice management software so your information is always up-to-date.*

*Bulk request and write-back capabilities vary across PMS integrations. Please consult with your sales or customer success rep for details.

Save time. Get paid faster. Improve collections.

- ✓ Collect payment **anytime, anywhere**
- ✓ **Easy to view**, paperless statements for dental services
- ✓ Keep all your payments **in one place** with physical terminals
- ✓ Automatically update your PMS **without lifting a finger**
- ✓ **Effortlessly manage AR** in the background
- ✓ **No surprise fees** or hidden markups

"Payments has definitely simplified things for our practice. Our collections percentage is way up and our workload is down. This means we can focus on other important priorities. And our patients have loved the switch as well. It has been such a blessing."

- Catherine C.

"Payments has enabled us to connect with our patients in a new and much more effective way. The 'old-school' method of sending paper statements had its day, but this new platform clearly works better for our patients."

- Scot P.
