

RUNNING A DENTAL OFFICE IS EXPENSIVE. AI CAN HELP.

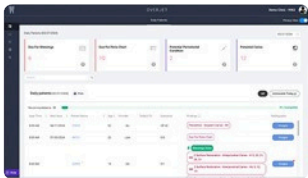

Dental offices today face many obstacles that cost time and money. About 50% of patients refuse treatment due to not understanding its importance, time constraints can cause dentists to miss treatment opportunities, and vast amounts of data leave dental professionals with no easy way to identify who may be missing treatment.

Thousands of dental professionals use Overjet to save time and money – so they can deliver better care to patients.

AI ANNOTATIONS

- FDA cleared to identify & quantify disease in real-time
- Draws your eye to areas of concern for comprehensive diagnosis and treatment planning opportunities
- Visuals improve patient education and case acceptance
