

Get **More Reviews** for Your Clinic

If your patients love their smile, they'd be happy to leave a review, right? Make it easy for them with Swell. Boost your online reputation and visibility by getting more five-star reviews thanks to personalized, automated review invites. Then track, report, and monitor your reputation in one dashboard.

22

Average number of new reviews per practice location.

4.98

Average review score for similar practices using Swell

Hey Jessica,

Thanks for coming in for your treatment today! We'd love it if you'd leave us a review!

Jessica Johnson

★★★★★

I love coming to this clinic for my cleanings, I always feel so great after!

The Easiest Way to Get More Reviews

Boost Reputation & Search Ranking

Improve overall Google review scores and boost search engine visibility.

Generate Reviews With Automation

Automatically send personalized review invites when patients are most likely to leave a review.

Monitor Reviews in Real Time

See review scores and other metrics. Read and reply to reviews from one dashboard.

Features

Automate Review Generation - Send personalized, text-based review invitations that boost review scores on Google, Facebook, and more.

View Detailed Reputation Metrics - See review scores across platforms, see open rates, response rates, and other metrics.

Create Custom Campaigns - Send 1-1 messages, or build messaging campaigns that blend text and email messages for maximum impact.

Read and Reply to Reviews - Bring together reviews and feedback from Google, Facebook, and more. Reply to reviews in a few clicks using templated responses.

Automate With PMS Integration - Swell integrates with most EHR/PMS systems, so you can automate review requests at crucial points in the patient journey.
