**Stainless Steel Mirror Heads available in #0, #3, #4, and #5 sizes

***All other listed mirror products available in #4 and #5 sizes

DENTAL MIRRORS

Always crystal clear.

SOFT GRIP HANDLE

Designed for precision and comfort, the soft grip handle provides a gentle yet secure hold. Available for cone socket mirrors.

ERGO GRIP HANDLE

The ergonomic design minimizes hand strain, ensuring a comfortable experience for dental professionals. Available for cone socket and simple stem mirrors.

CRYSTAL HD® MOUTH MIRROR HEAD

Get all the benefits of superior clarity on your preferred handle. Resin lens housing reduces galvanized shock and can be color-coded by procedure. Available in cone socket and simple stem.

CRYSTAL HD® DOUBLE SIDED MOUTH MIRROR HEAD

All the benefits Crystal HD® has to offer on both sides of this mirror head! Available in cone socket and simple stem.

CRYSTAL HD® THIN GRIP MOUTH MIRRORS

The Thin Grip handle is lightweight and features a textured handle to prevent slipping.

CRYSTAL HD® SOFT GRIP MOUTH MIRRORS

A fan favorite and a best seller in our Crystal HD® line! Features a lens that is flush with the mirror frame, eliminating the possibility of corrosion build-up.

MAGIC MIRROR® ANTI-FOG SYSTEM

The Mirror Magic™ anti-fog system prevents fogging on mouth mirrors and offers the practitioner a quick method to remove debris during procedures.

CRYSTAL HD® STAINLESS STEEL MOUTH MIRROR HEAD

Experience superior brightness compared to the standard rhodium lens in a traditional stainless casing.

Small changes, big results.

Color Method is a methodology and set of principles used to improve clinical workflow in the dental practice. Our color-coded products allow any dental team to organize their clinical workflow with minimal effort, helping the team perform at their best.

PROCEDURE TUB & SAFE-LOK® TUB COVER

Welcome to your new portable drawer. Finally, move all your procedure-specific materials into a Procedure Tub. With dozens of accessories, you'll love organizing with our Procedure Tub.

B-LOK FLAT TRAY

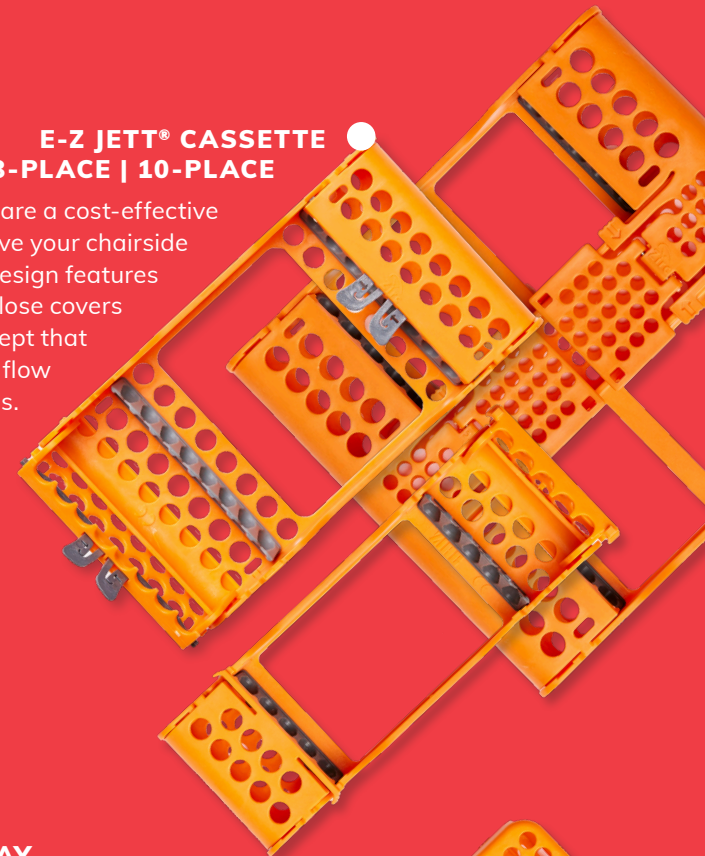

B-Lok Trays are a clinical cornerstone of organization. Our trays provide a safe and easy way to transport your pre-set procedure instruments. Our trays are equipped with non-slip feet, and a self-lubricating, high-gloss surface for stain resistance. Locking cover also available.

MINI TRAY

Our Mini Tray provides all the same benefits as our B-Lok Flat Tray in a small footprint. It's perfect for quick procedures and fits our 5-place or 8-place cassettes. Locking cover also available.

E-Z JETT® CASSETTE 5-PLACE | 8-PLACE | 10-PLACE

Zirc cassettes are a cost-effective investment to improve your chairside efficiency. The design features easy-to-open and close covers along with an open concept that allows for excellent water flow compared to normal cassettes.

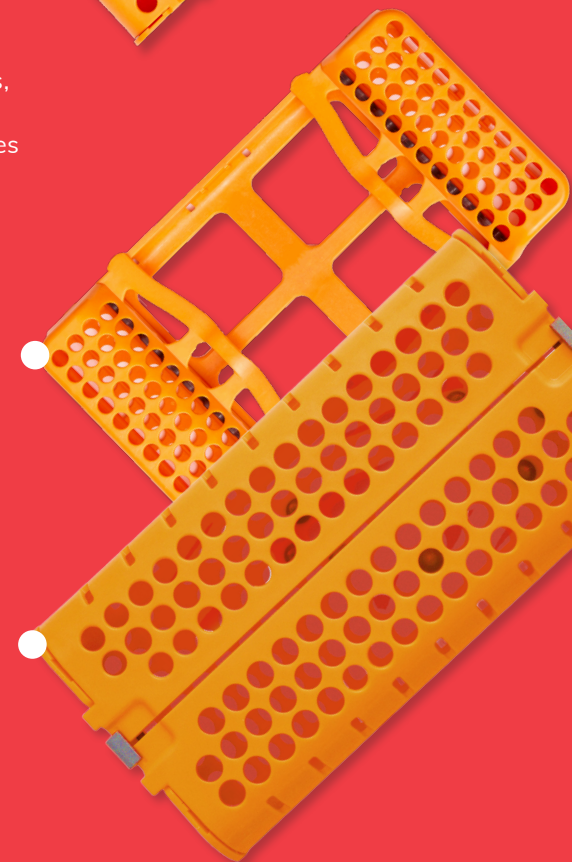

B-LOK DIVIDED TRAY

Organize up to 12 hand instruments, including a bur holder for 9 FG, RA, or HP burs. The Divided Tray features the same benefits as the B-Lok Flat Tray.

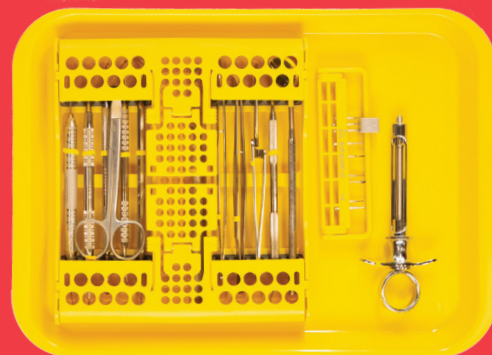

E-Z JETT® CASSETTE SLIM 8-PLACE

The thoughtful design of the Slim 8-Place makes for a great partner to those extra small autoclaves.

PERFORMANCE TOOL ORGANIZER

Designed to manage oversized specialty instruments.

Instrument Management

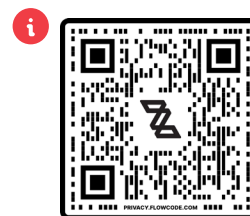

Procedure variety demands a vast array of items, resulting in an overwhelming quantity of materials and instruments. Assign each procedure a color and pre-set all your trays. This improves clinical workflow and sterilization, standardizes what is needed for each procedure and much more.

-  **Neon Pink**
Root Canal
-  **Neon Yellow**
Crown & Bridge
-  **Teal**
Exam/Basic Setup
-  **Midnight Blue**
Composite

Material Control

The extensive variety of materials needed adds complexity to the restocking flow, making it challenging to streamline storage. By procedure, and in the same color as your trays, tubs now act as portable drawers for 'grab-and-go' efficiency.

Our Clinical Efficiency Experts will rescue you from clutter and disorganization!

Endless possibilities.

We elevate efficiency.

Color Method is a methodology and set of principles used to improve clinical workflow in the dental practice. Our goal is to reduce the cost and waste of materials, improve staff training, and elevate the patient experience.

Our **Color Method** focuses on these four key principles:

- ✓ **Color**
- ✓ **Dental Materials**
- ✓ **Instrumentation**
- ✓ **Storage Areas**

Isolation Products.

AIRWAY ARMOR®

Airway Armor® was designed to eliminate the unnecessary risk of aspiration and ingestion of small items used in dentistry.

MR. THIRSTY® ONE-STEP

Hands-free, high-volume suction in three sizes! It's a must-have when working short-handed but can also free up the assistant's hand to perform other duties.

SE CUSHION

Designed to complement the Saliva Ejector, SE Cushion increases patient comfort by eliminating tissue grabbing or irritation while providing hands-free, low-volume suction.

PINK PETAL™

Comfort for patients and efficiency for you. Pink Petal™ provides continuous, comfortable, hands-free suction with no additional attachments required.

INSTI-DAM®

These rubber dams make for quick posterior and anterior placement. Comes mounted on the frame with a pre-punched hole. They are disposable and latex-free.

ISOLATION

LINGUA-FIX

A handy low-volume, hands-free retraction device to keep the tongue away from your work area.

Make your brand visible.

Keep your practice stocked with Zirc's personalized one-piece retainer and denture cases. They come in an assortment of colors with the option to add your practice name, logo, phone number, website, or your own unique message.
