

# KaVo Surgical systems for oral surgery and implantology.

KaVo Surgical portfolio redefines the best. They are simple, intuitive and easy to use with large color screens and pictorial guides for step-by-step implant procedures. The units offer intelligent power and precise torque. Discover KaVo's MASTERsurg™ and EXPERTsurg™.

### More you, every step of the way

- 10 customizable programs to meet individual requirements
- Flexibility due to multi-program mode to save settings (MASTERsurg only)

### Easy to use functions, saves time

- Intuitive, straightforward programming
- Symbolic references and color display make it simple to operate

### Guaranteed precision

- One touch auto calibration guarantees precise speed and torque for maximum safety
- Support procedure due to graphical real time display of torque and smooth running, low vibration

### Maximum power

- 80 Ncm torque at the instrument
- SMARTdrive technology for high torque and minimum vibration at the start

## PRODUCT FEATURES AND BENEFITS

**MASTERsurg™ LUX Wireless**  
Part no. 1009.1200

### More Comfort Features

- Simple, intuitive programming with exclusive glass panel touchscreen
- Choose a convenient location in your workplace thanks to wireless foot control
- Support procedure due to graphical real time display of torque and digital data

### More You, Every Step of the Way

- 10 customizable programs to meet individual requirements
- Flexibility due to multi program mode to save settings

### Maximum Power and Precision

- One of the world's lightest, smallest surgical motors
- 80 Ncm torque at the instrument
- SMARTdrive technology for high torque and minimum vibration at the start
- One touch auto-calibration guarantees precise speed and torque for maximum safety

### Technical Specifications

- Maximum torque 80 Ncm at the instrument
- Speed range 0-40,000 rpm
- Pump performance 0-110 mL/min

**EXPERTsurg™ LUX**  
Part no. 1008.3500

### Guaranteed Precision, Maximum Safety

- One touch auto calibration guarantees precise speed and torque for maximum safety
- One of the World's lightest and smallest surgical micro-motors

### Smooth running, low vibration

- High Reliability, Top Performance
- 80 Ncm torque at the instrument
- SMARTdrive™ technology for high torque and minimum vibration at the start

### Time Saving Easy-to-Use Functions and Features

- Intuitive, straight forward programming
- Symbolic references and color display
- Easy to clean

### Technical Specifications

- Maximum torque 80 Ncm at the instrument
- Speed range 0-40,000 rpm
- Pump performance 0-110 mL/min
