

The Partnership That Empowers

Maximum flexibility in all your ClearCorrect workflows

Our open and integrated platform gives you the flexibility to connect with virtually any digital scanning and imaging source, including direct integrations with leading scanners such as the Straumann SIRIOS and 3Shape® TRIOS™.

Start a ClearCorrect case with your preferred scanner.

Complete the prescription details and add patient photos.

Complete your case submission and receive the optimal treatment plan.

Reach out to your TM for more information.
